Belonging Focused Foster Care

Transforming foster care for the looked-after children, their families and the carers

October 6, 2026: 9am Eastern USA, 2pm UK, 3pm Western Europe

Imagine foster care that improves the outcomes and the experience for the child because their placement is created and sustained through a close partnership between the carers, parents, grandparents, aunts and uncles. This approach also increases the likelihood of successful and safe reunification. Is this a fantasy? Actually, it is not only possible it is already happening.
